SCIENTIFIC BILLIARDS.

OPENING GAMES OF THE TAMMANY HALL TOURNAMENT-GARNIER AND DALY PLAY IN-DIFFERENTLY AND SCHAEFER AND CARTER BRILLIANTLY-GARNIER AND SCHAEFER THE

Collender was successfully inaugurated last evening at Tammany Hall. Experts designate the "chamon's game," thus introduced to the public, as a eat improvement upon the older methods, and ulated to develop more scientific playing than as marked past efforts in the tournament line. 'Rail nursing" is restricted under the rules, but t wholly barred. The restriction is secured by he introduction of four triangular spaces, one at such corner of the table. A continuous line is drawn rom the face of the end cushion, opposite the first 'sight," or diamond. These "balk" lines on the le used last night extended a distance of fourteen inches on the short rail and a distance of twenty-eight inches on the side rail. Within these ngular spaces only one counting carrom can be layed. The result of the restriction is to promote open table" play, which is claimed to be a step in the right direction, adding as it does new attractions to this fascinating amusement. Each game consists 300 points, and the prizes aggregate \$2,000 cash and a handsome champion medal, oject to challenge. Eight players have entered for the tournament:—Messrs, Schaefer, Garnier, Rudolphe, Heiser, Carter, Daly, Slosson Garnier, Rudolphe, Heiser, Carter, Daiy, Slosson and Sexton. The opening contest was between Albert Garnier and Maurice Daily. Mr. Budd Schofeld was the referee, and the players dispensed with umpires. The audience was not large. Garnier won the choice in stringing for the lead, and selecting the white bail made the opening shot. He sat down with 7 to his credit. Dely failed to score. The Frenchman added 3 and the light-haired New York had broke the ice by making one. The contest progressed with results far from brilliant, but Daly in the seventh inning infused some life into the affair by adding 51 to his string. It was accomplished by carroms near the lower short rail. The score stood at this point—Daly, 71; Garnier, 64. In the tenth inning Daly rolled 43 together, and the spectators became interested. When one hour had passed the game stood—Daly, 161; Garnier, 111. The players began to experience the difficulties of the game and the spectators to appreciate their efforts. The work of the contestants, however, was indifferent, when their average skill shown in public is considered. In the twenty-ninth inning Garnier assumed the lead and was nover afterward headed. The thirty-ninth inning saw him through the tedious contest, defeating Daly by 61 points. The score is as follows:—
Garnier—7, 3, 11, 12, 30, 1, 0, 0, 8, 1, 6, 1, 0, 4, 2,

Winner's average, 7 27-39; loser's average, 6 11-38. Time of game—I'wo hours, four minutes.

Winner's average, 7 27-39; loser's average, 6 11-38. Time of game—I'wo hours, four minutes.

Schaffer vs. Carter and Jacob Schaffer were the players. Carter opened with 11. Jacob responded to the tune of 6. Eugene missed, and the second essay of Schaffer was productive of 83 points. The run was remarkable, inasmuch as it was made, on the lower short rail and required only 9m. 23s. to accomplish. The triangular spaces were avoided, and downright satil marked the effort. Carter added 5 to his buttons and Schaffer missed, the score standing—Schaffer, 89; Carter, 16. Then Carter resumed. He is a "green" player to the public and was compelled to work through a series of obstacles in the shape of preliminary play before he was allowed to enter as a contestant. In magnificent all-round-thetable playing he footed up 69. Schaffer opened his eyes and looked the green lad over from head to foot. He was puzzled, and so were the spectators. Schaffer's next responses at the table were feeble, and in the sixth attempt Carter sent his buttons along 71 points, and Schaffer seemed worried. The latter walked around the table and on one occasion made a frivolous claim of foul, which the referee very properly refused to entertain. Jacob's sixth trial gave him 8. Then Eugeno failed to score. Schaffer knew his only hope was the rail, as in the round-the-table work Carter was outplaying him. On the lower short and right side rails Schafefer managed to roll up 84 in fine shape. This placed the men even, the sympathes of the audience being with Carter. From this on the latter did his part well, and with 35 for his twelfth inning his total was 237, while Schafefer managed to roll up 84 in fine shape. This placed the men even, the sympathes of the audience being with Carter. From this on the latter did his part well, and with 35 for his twelfth inning his total was 237, while Schafefer with 30 was only 230. The fourteenth shot or this inning failed to count and Carter claimed the right to play. The referce decided that he had counted and

HANLAN'S POSITION.

TORONTO, Ont., Nov. 11, 1879. Besides having telegraphed to England that he is prepared to defend his possession of the Sportsman lan has received some very flattering offers to go to Australia and row Trickett. One is from R. W. Australia and row Trickett. One is from R. W. Cameron, American Commissioner at the Sydney Exhibition, who offers to have the champion's expenses thither paid and to introduce him to right parties to make all necessary arrangements. Hanlan has been obliged to decline this very triendly and gonerous offer for the present. Another gentleman has expressed his willingness to pay all expenses and accompany the champion to Australia at any moment he decides upon going. In the meantime the new race with Courtney looks like coming to a focus, and parties will meet this week to draw up articles and make other arrangements.

Hanlan this evening sent a telegram to Mr. Biatkie announcing his willingness to meet him and Courtney at Rochester on any day appointed.

COURTNEY WILLING TO MAKE NECESSARY AE-ROCHESTER, N. Y., Nov. 11, 1879. Charles E. Couriney sent the following despatch

NATIONAL RIFLE ASSOCIATION.

The Board of Directors of the National Rifle Asso ciation held their regular monthly meeting yesterday afternoon at No. 23 Park row, with eight mempers present. General Wingate was in the chair. The treasurer's report showed that the receipts for the month of September were \$1,425 57, and the disbursements, \$910 06; for the month of October the receipts were \$5,533 23, and the disbursements \$4,109 21. The chairman of the Range Committee reported that the work of repairing the butts was going on vigorously, and that it was decided to build a dry stone wall, cemented on the inside, and to extend the butts at the east end so that there would be space for another second class target. A motion to close the shrooting season for matches on December I was carried unanimously. A letter from Lieutenant Colonel E. H. Sanford, Inspector of Ride Practice for the First Division, National Guard, was read, stating that at a meeting of the First division Staff, held on the evening of October 14, \$125 was voted for a champion military marksman's badge.

PIGEON' SHOOTING.

WOODBRIDGE, N. J., Nov. 11, 1879. The contest for the championship badge of the Middesex Gun Club (ten birds, handicap rise, five traps), was won here to-day by Mr. Dwight The son, of Rahway, against fifteen competitors from New York and New Jersey. Thompson first made a tie with Woods, of New York, on nine birds; and he killed five to Woods' four on the shoot-off.

GLASS BALL SHOOTING.

WOODBRIDGE, N. J., Nov. 11, 1879. In a one hundred glass ball match at twenty-one yards rise, rotating trap, for \$50 a side, Mr. M. Ben-jamin, of New York, broke 89 and Mr. W. Marain, of South Amboy, 82.

Stakes with 44, the Houghton Stakes with 40, the Prendergast Stakes with 40 and the Clearwell Stakes with 43 subscribers.

The Nice regatta, under the patronage of His Royal Highness the Prince of Wales, has been finally fixed for March 11 and 12. It is tormally announced that a prize, value £1,000, will be offered for yachts above twenty tons, £400 for steam yachts over twenty tons, £400 for small yachts and valuable prizes for four-oard rowing boats, to be manned by amateurs. Medals, &c., to the second, third and fourth boats in the matches we see are to be given, and a rough draft of the rules has reached us. A atriking novelty in the yacht matches is the preposal of placing the vessels on distance marks measured in metres, the object being that the first yacht to arrive shall be the victor.

The Prince of Wales, accompanied by Prince Louis of Hesse, and attended by a royal suite, went to Windsor on Wednesday, 29th ult., by the Great Western Railway, for the purpose of enjoying a day's shooting in the coverts. On the illustrious party arriving at Windsor terminus they immediately proceeded in one of the Queen's shooting brakes, drawn by four horses, to the Great Park, where they were met by Prince Christian and a number of the royal keepers. Without delay they commenced shooting over the coverts, near Cranbourne, which abound with pheasants, hares and rabbits. Three woodcocks were also flushed during the driving. The whole party shot exceedingly well, more especially the Prince of Wales, who brought down the pheasants right and left in grand style. A considerable quantity of game was killed, chiefly pheasants, but the majority were old birds. The royal party at the conclusion of the shooting drove to Windsor, and thence took train for town.

At most of the provincial race meetings, says Bell's Life, November 1, there is generally a day's shooting added to the programme; but as it is generally con-nued to the local gentry, and but little advertised, they have the fun all to themselves. On this occasion it was an exception to the rule, and Mr. Day swept the board, taking away the Grand Prix de Touraine, as well as the Optional, with which the proceedings commenced. The winner used, in both instances, a central fire breech-loading gun, made by S. Grant, and full choke. The success of this weapon may induce Mr. Grant not to be quite so prejudiced against choke bores as he has been these late years, always upholding "smooth" against "choke." We

FIREMEN'S GRIEVANCES.

At a recent meeting of the Volunteer Fire con panies, of Hoboken, a committee was appointed to confer with Council, lay before them their grievances, and if no relief measures were granted the de-partment would disband. Last evening Council held a meeting, at which the matter was fully discussed. It appears that at the beginning of the fiscal year the sum of \$3,000 was appropriated for fiscal year the sum of \$3,000 was appropriated for the use of that department. Shortly after-ward, \$1,500 of the amount was expended in repairing No. 3 Engine house. The balance did not serve to meet current expenses. The firemen claimed that the sum expended in repairs should be charged to the Committee on Public Affairs, but Mayor Besson dissented from this view and hence arose the trouble. After hearing both sides of the question, a resolution was offered and passed trans-ferring the item of \$1,500 to the municipal contin-gent fund. By this action all the difficulties are settled and the sum will be sufficient to defray cur-rent expenses until the end of the year.

LOTTERY DEALERS ARRESTED.

The excitement among the lottery dealers of the city consequent upon the recent raid upon them by Mr. Anthony Comstock and his officers was kept alive yesterday by other arrests and voluntary surrenders of parties implicated. The specific charge made against the lottery dealers is violation of the Post Office law in sending prohibited matter through the mail. Yesterday the fullowing named parties appeared before United States Commissioner Shields and gave bail in \$1,000 each to appear for examination:—W. L. Craytou, E. W. Herman, Theodore Zschoch, Frank Moore, May Bogert and B. A. Martinez. Warrants are in the hands of the marshals for the arrest of several other dealers. The Austrian bark Nahor brought the crew of the schooner Pathway last evening to this city. The schooner was lying at anchor in the Hampton schooler was lying at anchor in the Hampton Roads on November 8, when the bark collided with it, carrying away the vessel's stern and transom beam. The quarterdeck rudderhead was stove in, causing the vessel to fill rapidly. The crew of the schooner endeavored to save their vessel by placing all available bedding over the hole. Nevertheless it rapidly filled and sank. Captain Sarne's son was carried overboard by the collision and drowned. The rest of the crew were taken on board of the bark.

A YALE FELLOWSHIP.

In the Surrogate's office there was filed yesterday the will of John J. Abernethy, late Medical Director of the United States Navy. The deceased, who was very wealthy, made a number of lange bequests, ranging from \$10,000 to \$25,000 each. To his sister-in-law, Mrs. Sarah McLean Abernethy, he left a life interest in an estate of \$10,000, and at her death directs that the estate shall go to Yale College to found a tellowship to be named after himself. He directs, however, that no one shall use the fellowship for a longer period than five years.

PAYING FOR THE SIX PER CENTS.

The Sub-Treasury had issued \$9,968,000 in checks up to the close of business yesterday to pay for the six per cent bonds purchased by the government. On Monday \$8,239,804 in checks were issued, and \$1,728,860 yesterday.
